“leave no one behind”

Audience

Clinicians

Managers

Policy makers

Development organisations

Others

Build it but they may not come!

**Access to & equity of care is an
alignment of supply and demand**

1. Are the services & providers

ready?

2. Are the communities & citizens

Digitally enhanced access & equity

How does your work ensure that no one is left behind?

What are the particular challenges to providing access to and equity of quality healthcare?

How can digital health tools transform healthcare delivery and access to services?
